

Alberta's up-and-coming tech products selected to present at DemoCamp

Alberta's up-and-coming tech products have been selected to demo for a live audience at [DemoCamp Alberta](#) on Wednesday, June 6 at the Glenbow Museum in Calgary.

Congratulations to the selected companies:

- [Athennian](#) is an all-in-one cloud-based, document workflow automation platform that powers modern legal and business teams to work better with their clients and colleagues.
- [BTL Group](#) is the creator of Interbit, a next generation blockchain platform.
- [DialogLoop™](#) is an audience engagement and networking software platform for live events.
- [Ez enRoute](#) is a touch-free, iBeacon-based student and bus tracking system.
- [IDyaFlow](#) is a simple, secure and responsive software for unique sharing platforms.
- [IMlocum](#) supports veterinary locums who want to take control of their schedule and grow their career.
- [Reputation Shielder](#) is the world's industry leading reputation management software.
- [SAM Desk](#) turns unstructured social media chatter into actionable insight and awareness.
- [TEKTELIC](#) is a premier supplier of best-in- class LoRaWAN™ IoT Gateways, Sensors and custom applications.

About DemoCamp:

DemoCamp Alberta is a collaborative event that brings together developers, creatives, entrepreneurs and investors to showcase the best up-and-coming tech products in our province. This event is an INVENTURE\$ Connect event, organized by Startup Calgary, Startup Edmonton, Calgary Technologies Inc. and TEC Edmonton.
